US Amateur Radio Technician Privileges

This chart shows privileges and band plan recommendations for each of the frequencies, as granted by the FCC to the Technician licensee. It is good amateur practice to follow the band plan established by the Amateur Radio community. The band plan is developed so that spectrum allocated for our use is used most effectively. You'll find a complete description of the band plan online at wwww.arrl.org/band-plan.

Effective Date March 5, 2012

Notes

Technician Licenses may use up to 1500 Watts PEP on the VHF and higher bands, but are limited to 200 Watts on the HF bands. You also have privileges to explore these microwave bands with CW, Digital, SSB, AM, FM and TV:

2300-2310 MHz 47.0-47.2 GHz 2390-2450 MHz 76.0-81.0 GHz 3300-3500 MHz 122.25-123.0 GHz 5650-5925 MHz 134-141 GHz 10.0-10.5 GHz 241-250 GHz 24.0-24.25 GHz All above 275 GHz
